OFFICIAL PAPER OF THE CITY.

For local matter, city notices, railroad, and other matters, see fourth page.

The News.

Ex-Governor Hicks, of Maryland, is dead. Yesterday morning, at the residence of the Secretary of the Treasury Department, and the name after the death.

The statement that Mobile is evacuated, seems to be confirmed.

The evacuation of Charleston seems probable.

Grant says he can finish up the war with "one hundred thousand more."

Maximilian refuses to let the rebels into his dominions. Plans to object also.

Gold closed at 207.

The Legislative Committee.

The joint committee of the two branches of our State Legislature arrived in this city yesterday afternoon and have been inspecting the affairs and finances, and the present condition of the Blind Institute to day. First on the list is the Hon. GEORGE S. BARNES.

the bald, hearty, corpulent gentleman who represents Winnebago county in the State Senate with so much ability and honor. He is a man of about forty summers and of such robust constitution that it may be said when he walks he carries everything before him. He has served his constituency twice in the Assembly, and now to top off his dignity, he stands as the Union representative in the "Upper" house. He is a strong anti-slavery man; as strong in muscle as he is in mind.

This is the identical "Sat Clark" of our local State politics. He was born in Washington city forty-eight years ago, and is one of the most thorough, radical and consistent pro-slavery men in this or any other State. "We say consistent because we mean it." He believes that the best place for a black man is under the care of some good white one, and in office or out, voting or speaking, he never swerves a hair's breadth from that idea. He has serious doubts about the negro being a human being at all, and acts accordingly. He thinks this war is a great outrage upon the part of the North, and that it might have been avoided if we had manifested the proper spirit of compromise and conciliation. We believe he has never given a cent of voted a dollar in his official capacity to carry on the war, although he is willing to provide liberally for soldiers and their families. Leaving his extreme political notions about the negro out of the question, and he is as safe and judicious a legislator as can be found in the Senate. He is serving his sixth or eighth year in the legislature, and represents the eastern district of Dodge county.

is a Michiganian by birth and represents a portion of the city and county of Milwaukee in the Senate. He is the youngest member of that body, being but 27 years of age, and is a good-looking, gentlemanly man, of good natural abilities, whose politics are of a mild, conservative, copperheadism. He is serving his second year in the Senate and has not been in public long enough to impress his identity upon our State politics. He represents the wealthiest district in the State.

This gentleman is a member of the Assembly from Walworth county and is Chairman of the Committee on Benevolent Institutions on the part of the House. He formerly resided in this city, and was settled as pastor over the Methodist society. He is a good, cheerful, and a strong temperance man, of which doctrine he is a willing advocate. He went out as Chaplain of the 13th regiment, but returned after about a year's service on account of failing health. He has the ability and pluck to make himself felt in the present legislature.

This gentleman is one of the leaders of the "democracy" so-called of the present legislature, and hails from Green Bay. He served in the last Assembly although he had been a resident of the State but two years at the time of his election. He is a progressive democrat and will probably vote for the Constitutional Amendment abolishing slavery, when it comes up next week. When he gets to be of full stature in sound Republican principles, (if he ever does) he will be a useful member of society. He received the vote of his party for the Speakership at the opening of the present House, and makes a valuable member of the present visiting committee.

is a farmer, comes from that sound Union county of Grant, which he honors as a wise and experienced legislator, always in his seat looking after the interests of the people and the State. Always modest and unobtrusive, he is one of the few men in these corrupt days that it is safe to the people. He was a member of the assembly two years ago, and we believe, served one term prior to that.

Last fall by no means least among our visitors, stands the name of Hon. James Ross. He is the trusty representative of the city of Madison, upon the floor of the present Assembly. He was a democrat of the strictest sort up to the breaking out of the present rebellion, but like thousands of others he forgot his party in the hour of peril and came generously up to the help of the Lord against the mighty. He was for many years the local editor

Janesville Daily Gazette.

VOLUME 8.

JANESVILLE, WIS., TUESDAY, FEB. 14, 1865.

NUMBER 297.

and legislative reporter for the Madison Patriot when that paper was at its zenith, and later was connected with the Journal. He is a fluent, ready writer; an easy, graceful speaker, and a genial, affable gentleman. Long may he wave.

These gentlemen leave for Madison this evening, well pleased with the manner in which the Institution has been conducted, and with the attentions shown them by our citizens.

The Mineral Point Tribune publishes the statistics of the freight business of the Mineral Point Railroad for 1864, which show that the road took away during the year 1,763,799 pounds of lead and 2,380,000 of zinc ore. In remarks upon the statistics the Tribune gives various facts showing that the lead business is on the increase. Some of the best leads ever struck in Iowa county have been developed the last year. The Linden Mining Company, operating near Mineral Point, have a furnace with superior machinery for crushing and cleaning mineral. The company supply their furnace with mineral entirely from their own mines, which are yielding beautifully. In their furnace and mines the company are now working about fifty hands, with an expectation of increasing the number in the spring. They have recently made new discoveries in their diggings which promise well.

The Monroe Sentinel records the crushing of the hand of a brakeman named John Sauton, between the bumpers of two cars, and the killing of a man near that place while cutting wood, the butt end of a tree striking and crushing his head. Capt. Foster, of the 26th regiment, has come home on furlough, badly crippled with rheumatism.

The Waupun Times says: William J. Earl, convicted by the Lafayette county Circuit Court for horse stealing, escaped while hauling ice from the river, on the 7th inst. Age, 19 years; height 5 feet 7 inches; complexion fair; hair dark brown, nearly black; hazel eyes, and the right hand disfigured. The Kewaunee Enterprise says: John Clifton, at work logging for Joseph Wilson, Esq., of Coryville, was seriously injured by a log rolling on him and breaking both his legs in several places. His legs were set and he was getting along comfortably. The Sheboygan papers are claiming that place as the best on the lakes for a naval depot.

The Manitowish Tribune thinks that place has great advantages for a naval depot and says there has been a great deal of emigration into that county within the past few years. It notes the death of Joseph Killner, at the age of 79. He served for 13 years in the Austrian army, in the wars against Napoleon, escaping without a scratch. He had resided 10 years in Manitowish. The West Bend Post records the escape of Bill Hamilton, the only inmate of the jail there for many months.

The Wisconsin notes the suicide of a man named John Draz, by hanging himself in the Milwaukee & Chicago depot. The reason assigned was continued ill health. The News says Rev. Jas. McLean, pastor of the Astor Street Congregational Church of Milwaukee, is going to Berlin. "Corling" is getting popular in Milwaukee. The St. Paul elevator is rapidly approaching completion. The Racine Advocate has an interesting account of the Threshing Machine Works of Senator J. L. Case & Co., comprising six large buildings, employing 175 men, using annually 30,000 feet of soft lumber, and 40,000 of hard, and makes up 500 Separators a year. The Post-office at Prairie, Racine county, has been discontinued. Racine churches contribute \$260.59 in cash for the freedmen. An effort is making to settle the indebtedness of Racine. The Kenosha Telegraph says an accident occurred lately in the Badger State Iron Works there. John Henry, while running the spoke lathe, caught his left hand in the knives of the machine, instantly severing the thumb and three fingers off close to the hand, leaving only the little finger, and that severely cut.

The new Confederate flag adopted by the Senate on Saturday, is as follows: The width is two-thirds of its length, with the Union now used as a battle flag to be in width three-fifths of the flag, and so proportioned as to leave the length of the field on the side of the Union, twice the width below it, to have the ground red and blue bordered with white and embellished with mullets or five pointed stars, corresponding in no way to that of the Confederate States, the field to be white, except the outer half from the Union, which shall be a red bar extending the width of the flag.

COUNTY SUPERVISORS.—Mr. Dewitt Davis of Milwaukee has introduced a bill in the assembly which provides that "no member of the board of supervisors of any county in this State shall be eligible, during the full term for which he is elected, to any office or appointment, to which the election or appointment is authorized to be made by the board of supervisors of which he is a member. All elections and appointments, and all votes cast for any person contrary to the provisions of this act shall be void."

The bankers and financial men of Chicago memorialize the President to appoint Hugh McCullough Secretary of the Treasury.

THE DRED SCOTT DECISION BURIED IN THE SUPREME COURT.

Oh, augustly simple funeral cortege—oh, dead, wrapped in the coverings that the divine hand of revolution folds its victims with, augustly exciting in your stormy birth, transcendently mischievous in your little life. Senator Charles Sumner and Negro lawyer John S. Rock, the pall-bearers—The room of the Supreme Court of the United States, the Potter's Field—of the corpse, the Dred Scott decision.

Through the door that was so narrow to freely let the bearers that bore Charles Sumner's inanimate form from the Senate chamber, where he had been stricken down by the assassin of the Slave power, Charles Sumner to-day marched back leading a negro by the hand, and standing upon the very spot that had been stained by his blood for demanding freedom and equality for the blacks in America, demanded of the Supreme Court of the United States to enroll among its members an African lawyer, and to license him to practice at its bar.

The black man was admitted. Jet black, with hair of an extra twist—let me have the pleasure of saying, by purpose and with premeditation, of an aggravating "kink"—unqualifiedly, obtrusively, defiantly, "Nigger"—with no palliation of complexion, no let down in lip, no compromise in nose, no abatement whatever in any facial, cranial, osteological particular, from the despised standard of humanity, brutally set up in our Politics and in our Judiciary by the Dred Scott decision, this ink-hued African stood in the monarchial power of recognized American Manhood and American Citizenship, within the bar of the Court which had solemnly pronounced that black men had no rights which white men were bound to respect, stood there a recognized member of it, professionally the brother of the distinguished counselors on its long rolls, in rights their equal, in the standing which rank gives their peer. By Jupiter the sight was grand!

"Was dramatic too. At three minutes before 11 o'clock in the morning, Charles Sumner entered the courtroom followed by the negro applicant for admission, and sat down within the bar. At eleven the procession of gowned Judges entered the room with Chief Justice Chase at their head. The spectators and the lawyers in attendance rose respectfully on their coming. The Associate-Justices seated themselves nearly at once, as it is their courteous custom of waiting on each other's movements. The Chief Justice standing to the last, bowed with affable dignity to the bar, and took his central seat with a great presence. Immediately the Senator from Massachusetts arose, and in a composed manner and quiet tone said: "May it please the Court, I move that John S. Rock, a member of the Supreme Court of the State of Massachusetts, be admitted to practice as a member of this Court."

The grave to bury the Dred Scott decision was in that one sentence dug, and it yawned there, wide open, under the very eyes of some of the judges who had participated in the judicial crime against Democracy and humanity. The assenting nod of the great head of the Chief-Justice, the black counsel of the Supreme Court got up and stamped it down, and smoothed the earth to his walk to the rolls of the Court.

Butwell of Massachusetts was by drinking in the spectacle with his blaring eyes, and Wilson of Iowa stood at his side measuring the big fact and welcoming it. A New York representative who yesterday voted against the Constitutional amendment to abolish slavery, carried his abdomen with obtrusive vanity about the bar, and gazed at a spectacle which he had not the sense to appreciate nor the heart to feel. A few lawyers of the old regime looked on, stunned somewhat, but rapidly growing in wisdom and mixing reluctance to this revolutionary intrusion. These, and three jurists, and two sight-seers struggled in from their weary aversion to the tardy ornamentation of the new Capital Wing, and Middleton, Clerk of the Court, especially appointed by Taney's urgency and vote, these were all the spectators of the noteworthy scene. Self-possession and the insecurity of his tenure of his valuable place, constrained the semi-Seotch clerk to propriety of manner, while swearing in the first negro lawyer upon the rolls in his custody. His face, however, was set hard, and his soul evidently longed for the resurrection of his old Chief, Taney, and the palmy slave-driving days of the Attorney-Generalship of the Chief-Justice. But they are all gone, and the revolution which is washing off the Continent, slavery, aristocracy, caste and privilege, came up with Salmon P. Chase into the Supreme Court of the United States, and is already enthroned in the seat of its Chief Justice, and in the chairs of the lawyers who argue at its bar.—New York Tribune.

The Military Situation. The Army and Navy Journal makes a calm review of the military situation, with some suggestions as to the probable course of the spring campaign, which are well worthy of attention: "We regard Grant and Lee as about equal in strength, considering the tasks imposed upon each. Each, by position, is in a condition to resist all possible aggression; and neither, therefore, is prepared to make any vigorous and decisive aggressive movement with any reasonable chance of success. We consider Thomas and Hood to be necessarily out of the sphere of present operations. The former, because he has been wisely deployed to reinforce Sherman; the latter, because of his immense losses in men and material during his failures in Tennessee. The key of the position, the hopes of the future, we consider to be with Sherman, who, unopposed by any organized force capable of confronting him with probability of success, threatens so many important points in the enemy's territory, that concentration to oppose him must mean the abandonment of positions of considerable importance to us."

Sherman's ultimate object is now Richmond, and his advances upon that point may occupy three months or possibly six, but not more. His danger will come in the spring when he is far enough advanced to have Wilmington as his base.

Mrs. Lincoln wore at her drawing-room on Friday last a heavy purple velvet dress trimmed with white cord and buttons, an elegant white lace shawl, head-dress of flowers and white lace, white kid gloves and fan.

The Situation near Mobile!

GOLD CLOSED IN N. Y. AT 2.07!

FROM THE SOUTH.

New York, Feb. 13.—The Post's Washington special says the Richmond papers of Saturday admit that it is probable the rebels were evacuating Charleston.

New York, Feb. 13.—The Richmond Dispatch of the 11th inst., thus sums up the situation in South Carolina: "The Edisto river rises in the southwestern portion of South Carolina, and running southeasterly empties into the Atlantic forty miles southwest of Charleston. Branchville is on the Augusta branch of the South Carolina railroad, east of the point at which the railroad crosses the Edisto. This river is now the line held by Gen. Hardee in the neighborhood of Branchville. Nearer the coast we hold the line of Cambalache river in the vicinity of the Charleston and Savannah railroad. From the most authentic information it appears that while part of Sherman's army is making active demonstrations against Cambalache, Kerry near the Charleston and Savannah railroad, as if with the intention of forcing a march on Charleston, the rest of his forces have appeared at four points on the Edisto, namely: at Newbridge five miles below Branchville, at Bumachista, at Holman's Bridge, and at the railroad bridge opposite that place. Our troops which held the bridge over the Salkahatchee were driven in last Wednesday. If he succeeds in forcing a passage over the Edisto, above and below Branchville, he will keep the railroad running thence to Columbia, and also the railroad to Charleston, and compel our troops to fall back from Branchville, but they will most probably evacuate it if at any time it should appear that Sherman cannot be prevented from crossing the river. The above is written in hope of giving our readers some idea of the situation in South Carolina.

It was said some days ago, that Sherman was also sending a column against Augusta on the Georgia side of Savannah river. We have no information on this head.

The Times' Washington special says latest Richmond papers received here state that on Friday last Gen. Sherman evacuated Branchville within four miles of that place. It is understood that the rebel papers of Saturday made definite announcement of its capture, and General Grant stated it as a positive fact, and also confirmed the statements of the evacuation of Charleston as a military necessity.

A correspondent of a South Carolina paper who has been over the route of Sherman's march through Georgia, is surprised to find that our officers dealt so leniently with that State and consoles himself with anticipations of the same gentle treatment for South Carolina.

FROM WASHINGTON.

Washington, Feb. 13.—The Post's Washington special says: In his letter to the Committee on Ways and Means, Mr. Fessenden does not ask for power to issue more currency. It is probable that he will rely on the 7-30 notes for the next fiscal year.

Ex-Governor Thomas H. Hicks, U. S. Senator from Maryland, died at 7 o'clock this morning.

PHILADELPHIA, Feb. 13.—The Bulletin has a special dispatch from the Wall Street, which says Comptroller McCulloch, it is currently reported, is appointed Secretary of the Treasury.

Washington, Feb. 13.—The President to-day nominated to the Senate, Hon. E. D. Morgan to be Secretary of the Treasury.

Washington, Feb. 13.—Holtz.—On motion of Mr. Schenck, a joint resolution was adopted appropriating \$25,000 for a contract with Wm. H. Powell to paint a picture illustrative of some naval victory, to be placed at the head of the grand staircase of the Capitol.

New York, Feb. 13.—The Express' Washington special says the President sought to withdraw Mr. Morgan's nomination after sending him in, but was told that it could only be done by a special message. Mr. Sevard will certainly remain in the Cabinet until the 4th of March, notwithstanding the double representation from New York.

New York, Feb. 13.—The Times' Washington special says it is generally understood that the country is indebted mainly to Horace Greeley for the recent peace demonstrations. It was at his instance and solicitations that Blair went to Richmond and set the machinery which made a conference necessary. Gen. Grant told a member of Congress recently if the country would give him 100,000 fresh men he could close the war in three months. It is supposed the draft will net Grant at least 200,000.

FROM THE GULF.

New York, Feb. 14.—The Herald's Washington special says officers from the forces operating against Mobile, who arrived here this evening, confirm the reported evacuation of that place. Hundreds of deserters have come off to the army and the fleet and unanimously agree in the statement that nearly all the rebel troops have left that place and that it will be surrendered whenever a demand for it shall be made, even if the force by which it is backed up shall not be a very large one. The cotton has all been reneged into the interior. Our fleet are busily engaged in removing obstructions and expect to be able to reach the city by the 1st of March.

New York, Feb. 13.—The Commercial's Washington special says officers from the fleet off Mobile report great activity in the removal of torpedoes and other obstructions in the harbor, and it was confidently expected that the rebels would evacuate the city. The fleet is working its way up the harbor.

MORE REBEL PIRATES.

New York, Feb. 11.—The Herald's Paris correspondent states that the two formidable naval rams, Sphinx and Choiseul, built at Bordeaux, France, some two years ago, have been fitted out in the most complete manner for our Southern rebels, with the latest classes of guns and full crews, and under the new names of the Stone-wall and the Rapid, are to sail in the beginning of this month from a little island off the coast of France for this port. It was believed that they would experience no difficulty in passing all the batteries in our harbor, and coming right up to the city, which is reported to be designed by their commanders either to lay under heavy contribution or to destroy. This scheme is said to have been concerted and assisted in its prosecution under a secret treaty between the Emperor Napoleon and the Jeff Davis Government.

FROM NORTH CAROLINA.

New York, Feb. 11.—The steamer Flag with a convey of 21 vessels loaded with cotton from Savannah, arrived this morning. No news.

Major General Schofield has assumed command of the Department of North Carolina. This places him at the head of all military forces now operating in the vicinity of Washington. It is expected that General Terry will command a corps under General Schofield.

The latest advices from Cape Fear river were to the 9th, all quiet.

FROM NEW YORK.

New York, Feb. 13.—Gold quotations have been from \$207 1/2 to \$207.

New York, Feb. 13.—At the meeting of the Board of Supervisors this afternoon a resolution was offered stating that, whereas the authorities contemplated the removal of the State Capitol, the county government request the State government to accept the new county Court House for the purposes of a Capitol. This resolution was carried unanimously and immediately signed by the Mayor.

FROM THE PLAINS.

Omaha, Feb. 12.—The telegraph is again working to Denver. The Indians in small bands are at different points along the railroad from Fort Kearney westward. The main body has gone up the north Platte. Col. Childs with his command has had a series of encounters with the Indians, which lasted for six days. The Indians are estimated to number 2,000 while our soldiers number about 300, not sufficient to follow and chastise the savages.

FROM MEXICO.

New York, Feb. 11.—A letter read in this city from Mexico, stated that Ex-Senator Gwyn's scheme for the evacuation of the Northern States of Mexico has failed, owing to its being his design to introduce into that country as colonists, large numbers of our Southern rebels, to which Max, Juarez objected.

FROM SAVANNAH.

New York, Feb. 13.—The Tribune's Savannah letter says: "The sick and wounded soldiers of Sherman's army, now in Savannah are suffering for want of proper food. While the loads of provisions are being distributed to the citizens, nothing but army rations are furnished our hospitals."

Off for Madison.

—Capt. L. House left here for Madison on the 14th, with a squad of fifty men for the 44th regiment.

State Firemen's Association.

—This body meets in this city this evening for the transaction of business connected with the organization.

Filling Up.

—As the time for the commencement of the draft draws near, volunteering is rapidly increasing and towns everywhere in the county are filling up their quotas. We believe there is not a town in this county that will be compelled to submit to the draft.

Circuit Court.

—The law term of the Circuit Court, Judge Noggle, presiding, commenced yesterday.

Action for foreclosure, Lewis D. Jerome vs. Lyman J. Barrows. Judgment for plaintiff.

Case of Spafford vs. Welles which had been dismissed, was reinstated.

No. 22, 26, 27 and 28 on the calendar were continued.

Case of Deans et al vs. E. S. Barrows was in progress to-day as we go to press.

The Concert Last Evening.

—The concert of the Madisonians at Lappin's Hall last evening, was attended quite numerously, and was an excellent entertainment, the efforts of the performers being frequently and loudly applauded. While the vocal part of the entertainment gave so much satisfaction, the execution of Mr. Smith on the piano was especially fine. With years of experience and practice added to his present attainments, he promises to make one of the first pianists of the day. The flute duet accompanying the piano was a fine thing and well received.

We believe the audience was well pleased with the concert, and the performers with the reception they met with.

Letter from Milton.

Milton, Feb. 13, 1895.

Editors Gazette:—Will you please confer a favor upon the members of the Philomathean Society by mentioning through the columns of your valuable and widely circulated paper that Prof. E. Searings will deliver a lecture next Saturday evening, February 18th, at 7 o'clock, at the Milton Academy, before the Philomathean and Ladies' Literary Societies. Subject: "The demand of the Republic for educated citizens." The public are respectfully invited.

A. B. Tuxman, Sec'y.

Thoughts for Home Students.

In No. 2 I said, "We are parks of living wonders." Now, if you have access to a good microscope, I will prove the assertion true. It will be an interesting and valuable use of your long winter evenings, to draw from your hand a small particle of blood, and diluting it with warm water, spread, as thinly as possible on a slip of clean glass with a hair pencil. Looking at it now, you perceive red globules 1-1040 part of an inch in diameter, floating in transparent water or serum. Each of these globules contains six smaller and more transparent ones, which also contain each six other and more minute and colorless ones, so that each red globule is composed of at least thirty-six smaller ones.

Science in its more recent triumphs, has discovered organized and independent life in each of these minute bodies. Dip the point of a pin in blood, and the small drops thus taken up will contain an active, living, moving population of 3,000,000 beings. It has been calculated by men who have demonstrated the foregoing facts, that 20,000,000 of these animate beings are formed, live and perish in a single person; in a few moments of time, or perhaps, in a single pulsation of the heart. Can you realize that you have dancing, swimming and frolicking being, in numbers almost infinitely beyond the human population of the globe? Yet such is the fact.

You will naturally inquire where is the cemetery in which so many wonderful beings are deposited? There are more than 2,000 interlarding springs (perspiring glands) in every square inch of skin, and more than 5,000,000 of them on the surface of the entire body. Now, if you enclose your hand in a cold, dry glass jar and make it tight around the entrance, the jar will soon be covered with moisture from the hand, and the hand itself become sticky and filthy from the dead matter flowing out by these little sewers (glands) of the body, which, in the course of twenty-four hours will thus carry off from twenty to thirty ounces of corrupt matter. These facts are enough to induce cleanliness of person, regular habits, even tem-

perature of the body, and a proper regard for sufficient clothing, without which the blood becomes impure, disease is generated and the mind is dull and stupid, and all the functions of animal life are more or less paralyzed.

A word to the wise is sufficient.

The works of God, above, below, within us and around.

Are pages in His book, to show how God himself is found.

Birds-nest Cottage, Harmony, Feb. 11, '05.

"THE SITUATION" IN THE SOUTH.—January has run its sands and spring approaches. The war, which further South has known no pause, will soon wake again in Virginia. Grant is gathering his forces around us. His own army is entrenched near at hand. Sheridan is in the Valley. Thomas is in Tennessee, Sherman is menacing our southern connection, and with his face southward. All the signs indicate an early, combined and vigorous movement upon our great lines of railway and upon the capital of the country. Three months of winter were precious months of preparation. Two of them are gone, one of them remains. Has our work been accomplished? Have our plans been formed? Have our measures been taken? Has our policy been agreed upon? Has our army been re-organized? Has it been strengthened? Alas for the answers that truth requires! Alas that the time of preparation is ending before preparation is commenced!

Kerosene vs. Health.

—It is stated that the practice of burning kerosene oil nights, with the wick turned down, is very injurious to health, and that it is one of the prominent causes of diphtheria, and is also productive of the disease known as "spotted fever." Of the latter statements we know nothing, but who has slept in a room with a burning lamp with nearly turned down, will not endorse the statement that it is unhealthy and disagreeable? The best and safest way is to put out the light on retiring, leaving matches handy.

CITY NOTICES.

Two good second hand pianos for sale cheap at Darling's music store, Myer's Oct. 10th 1891-92.

Have you seen Dimock's new arrangement in connection with the model Drug Store? If you have or have not, call and get your winter supply of blotting pads, etc., etc., and don't forget to get insured at the same time.

FOR BUSINESS EDUCATION.—Go to Bryant, Stratton & Spencer's Milwaukee Commercial College. "The best is the cheapest." The college paper is sent free to any address.

Dimock has recently been appointed agent for that sterling old Fire Insurance Company of New York, the Metropolitan. They divide 75 per cent. of their profits among policy holders, and have cash assets amounting to some \$800,000.

It will not be forgotten that Dimock still represents all the big leading companies of New York and Hartford, such as the Old Anna, Home, Hartford, Phoenix, International, Security and many others equally sound and reliable. Twenty Millions represented.

A RELIEF.—You are troubled with a bad breath; it annoys your friends and acquaintances, as well as yourself. You would like to get rid of it, but scarcely know what means to adopt. It will cleanse and beautify your teeth, and leave your breath pure and sweet. Sold by Druggists.

The venerable Old North American Insurance Company of New York, has recently been added to Dimock's list of Sound Old Eastern Companies.

The North American was established in 1823, and now has nearly one million of cash assets, and divides 75 per cent. of its profits to policy holders.

On all sides we hear the merits of the Grover & Baker Sewing-Machine extolled. The ladies declare it the "very best," and prove it to us in so many undeniable facts that we are bound to confess our conviction of the truth of the declaration. What other machine will embroider so beautifully, braid so elegantly, hem so faultlessly, quilt so evenly, stitch so accurately, gather so regularly, operate so easily? None, we conscientiously affirm.

THE LORILLARD FIRE INSURANCE COMPANY of New York is now represented by Dimock. They have cash assets amounting to more than three-quarters of a million of dollars and divide annually 75 per cent. of their profits among policy holders.

THE GRAND GIFT CONCERT.—It will not have escaped the attention of our readers that Prof. Balch, of Milwaukee, gives a grand concert in Milwaukee on the 22d of March, at which a large number of rich and valuable prizes are to be distributed. The gentlemen engaged with the Professor in this enterprise are substantial and reliable business men, who in the management of a similar entertainment for the past three years have made it a complete success. Dug. King, at the Post Office, is the agent for the sale of tickets in this city and vicinity.

DR. PERSIA, NERVOUSNESS, AND DEBILITY. DR. STRICKLAND'S TONIC.—We can recommend those suffering with Loss of Appetite, Indigestion, or Dyspepsia, Nervousness and Nervous Debility, to use Strickland's Tonic. It is a vegetable preparation, free from alcoholic liquors; it strengthens the whole nervous system; it creates a good appetite, and is warranted to cure Dyspepsia and Nervous Debility.

For sale by Druggists generally at \$1 per bottle. Prepared by Dr. A. Strickland, 6 East Fourth street, Cincinnati, O.

E. F. Colwell Wholesale agent, 233 Broadway, New York.

C. WILSON M. D.—Physician and Surgeon from the Hospitals of Guy and Saint Thomas, graduate of the London School of Medicine and Surgery. Dr. C. Wilson is a well qualified and experienced physician, having been physician and surgeon to the Chicago, Hampton and Belgrave Dispensaries, London, for years.

In the same office with W. A. M. D. corner of Franklin and Pleasant streets, Juneville.

Town and country calls promptly attended. Oct. 10th 1891-92.

COMMERCIAL.

REPORTED FOR THE JOURNALIST GAZETTE, BY HENRY A. BAKER, JUNIOR AND PRODUCED DEALERS.

JANESVILLE, Feb. 14, 1905.

Receipts of wheat were better today than for some time past, and under a brisk competition among buyers prices ruled firm, and for choice samples we note an advance of 16c in price, selling at \$1.45 per bushel for choice milling spring, and \$1.35 per bushel for shipping grades. Receipts of oats were also fair and market 16c lower, with sales at \$2.25, closing dull. Other produce unchanged.

We make up prices as follows:

WHEAT—Good to choice milling spring 1.45, 1.55 shipping grades 1.35, 1.40.

FLOUR—Ford's best family 3.75, 3.80 Do.

RYE—In request at 1.00, 1.05, 1.10 Do.

BARLEY—Rangers at 80¢, 85¢ Do. for common to choice sample.

CORN—Ear 50¢, 55¢ Do. 22 Do. shelled 60 Do. 50¢, 55¢.

OATS—Quiet at 50¢, 55¢.

BEANS—Good to prime white 1.50, 1.55 Do.

POTATOES—Choice Melba and Peak 10¢, 15¢ Do.

SMOOTHY SEED—34 Do. 3.75, 4.10 Do.

FLAX SEED—60 Do. 2.25, 2.50 Do.

BUTTER—Good supply at 50¢, 55¢ Do.

EGGS—Green 50¢, 55¢ Do.

SURE PILLS—Range from 75¢ to 1.00 each.

WOOL—Rangers at 70¢, 75¢ Do.

DRESS HOSIERY—Range from 11.00 to 12.50 light to extra heavy.

CATTLE—Live weight 3.00, 3.50 per cwt.

NEW YORK MARKET.

NEW YORK, Feb. 14, 1905.

FLOUR—2¢, the better on common grades, \$10.05; 10-15 extra; \$12.10; 15-20 R. H. O.

WHEAT—Very dull with limited supply. \$2.15 fair.

Chicago spring.

CORN—\$1.85.

GOLD—Opened \$2.05; rose to \$2.08; closed \$2.07.

Railroads.

CHICAGO & NORTHWESTERN RAILWAY.—On and after Nov. 20th, trains will leave Juneville as follows:

Passenger Trains.

GOING SOUTH.
